TITLE : GUM TABLET

ABSTRACT : PURPOSE: To obtain gum tablet having good flavor and texture in good productivity by forming powdery gum consisting essentially of a powdery gum jaw material, a binder solution and water-absorbing saccharide into tablets.

CONSTITUTION: This gum tablet is obtained by forming a kneaded material consisting essentially of (A) a powdery gum raw material, (B) an aqueous solution of a binder (e.g. gum Arabic, pullulan or gelatin) and (C) a water-absorbing saccharide (e.g. anhydrous maltose or anhydrous glucose) into tablets. During production process, the gum is free from deterioration of flavor and texture.
